This grant program and publication are funded in full by the California Department of Forestry and Fire Protection (CAL FIRE) as part of the California Climate Investments Program.

California Fire Safe Council (CFSC) is pleased to announce 17 County Coordinator Grant Program awards, located across California. In total, CFSC will award \$2.975 million to these 17 subrecipients.

The objective of the County Coordinator Grant Project is to educate, encourage, and develop county-wide collaboration and coordination among a county's various wildfire mitigation groups.

Counties and their coordinators will work closely with the California Fire Safe Council to: (I) Build a census of all active wildfire mitigation groups in their county, (II) Analyze gaps in county-wide wildfire resiliency and emergency preparedness and develop recommendations to fill these needs, (III) Develop mechanisms to improve outreach and coordination efforts.

Please see the map below for the 17 new 2022 CAL FIRE County Coordinator Statewide subrecipients. Learn more about the program by [clicking this link](#).

Thank you to all applicants for your efforts and commitment to county-wide wildfire coordination and collaboration. We are looking forward to working with you toward our shared vision of a more fire-resilient California!

The County Coordinator Program is part of California Climate Investments, a statewide program that puts billions of Cap-and-Trade dollars to work reducing GHG emissions, strengthening the economy, and improving public health and the environment— particularly in disadvantaged communities. The Cap-and-Trade program also creates a financial incentive for industries to invest in clean technologies and develop innovative ways to reduce pollution. California Climate Investments projects include affordable housing, renewable energy, public transportation, zero-emission vehicles, environmental restoration, more sustainable agriculture, recycling, and much more. At least 35 percent of these investments are located within and benefiting residents of disadvantaged communities, low-income communities, and low-income households across California. For more information, visit the California Climate Investment website at: www.caclimateinvestments.ca.gov.

2022 CAL FIRE County Coordinator Statewide Selected Projects

Colusa County

Recipient: Colusa County
